ALBUMS

There are two series of albums available for ALF music cards. The numeric series (Album 0, Album 1, etc.) are for the 3-voice MC16 music card, and are printed in blue for easy identification. The alphabetic series (Album A, Album B, etc.) are for the 9-voice MC1 music card, and are printed in brown. Both series are normally supplied on Disk II compatible floppy disks, but are available on cassette tape by special order. The contents of the albums are given below. Names not in parentheses are composers, names in parentheses are programmers. Each album title is followed by its order number in parentheses.

*ALF Music Cards are readily programmed by customers, not just the factory "experts". Programmers marked with an * are not ALF employees; their songs were purchased for use on our Album series. Information on submitting your songs is available, send a self-stamped self-addressed envelope and ask for publications 8101 and 8102.
