FUTURA OUTLINE ALPHABET

Based on Futura Medium

A complete character set based on the popular typeface Futura medium.

The characters can be easily set into words and phrases which can themselves be saved on library disks and used repeatedly on your screen displays and finished artwork.

The ROBOGRAPHICS system allows a wide range of transformations to the individual characters and complete words. The transformations include SIZE, ROTATION, COMPRESSION, EXPANSION, 'MIRRORING', SLANT, COLOUR, LINE TYPE and LINE WEIGHT.

In addition you can draw your own characters or amend those on the disk at any time.

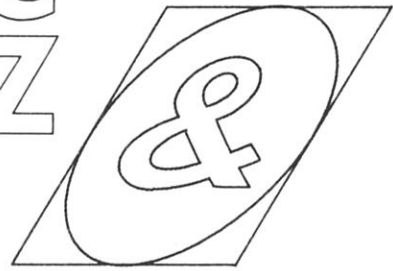

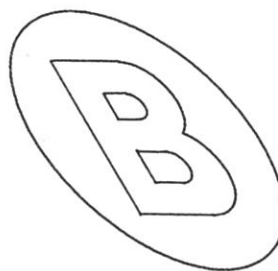

Spare index boxes are provided for you to save your own characters or pre-assembled words, headings, etc.
