Over 200 Software Titles for Your Apple IIe or Apple IIc

Sequential Systems MEG 80Z™: A low-cost, one Megabyte auxiliary slot memory card for your Apple IIe. It's fully compatible with AppleWorks 3.0 and Publish-It! 4. You can install it in less than one minute. Up your memory to 1024K. Two-year guarantee and technical support. Also included are RAM Disk and WorksLaunch software. Order product number SQ02. Priced at only $80.
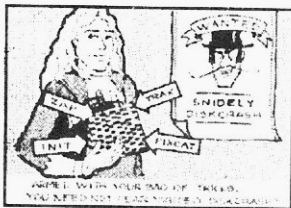

Bag of Tricks 2™: There are four comprehensive disk utility programs that help analyze, modify, and restore disk data. Included is: TRAX to dump and examine track information; INIT to copy undamaged parts from one disk to another; Zap a sector editor; and FIXCAT that automates the process of repairing a damaged ProDOS directory or damaged DOS catalog. Priced at $25. Order product number QS15.

ProTERM 3.1™: The most complete and easy to use software for telecommunications. Sophisticated features such as pull down menus, hotkeys, mouse support, a full word processor, terminal emulations, and extensive protocol support provide all the needed telecom tools. Includes sign-up kits for: Compuserve, GEnie, Delphi, Dow Jones News, and Canada Remote Systems. Without a doubt the best for the pro or novice. Price is $85. Order product number IN20.

THE FINE PRINT

Please read the following information carefully before ordering. Because not all Apple II's are equal it's very important to make sure that you have the right system before ordering. There's nothing more disappointing than buying a piece of software only to find that it won't work on your system.

System Requirements: Apple IIe & IIc products that are listed in this catalog require either an enhanced Apple IIe with 128K of memory and one 5.25" disk drive, or an Apple IIc with one 5.25" disk drive. In most cases, these programs will also work with either a Laser 128 computer or an Apple IIGS but we won't guarantee it so it's best to check before ordering. Many games require a joystick and/or a color monitor. We have attempted to note any exceptions to these requirements within the product's description. Many of the older products are not hard drive installable. A small number of the games are copy-protected. Many of the commercial educational titles are available on either 5.25" or 3.5" disk media. If you ask, we will make an effort to fill your order with 3.5" disks for those programs where they're available.

Return Policy: If you receive a defective disk and return it to us within 30 days of receiving your order, we will replace the disk for free. Do not return the entire package and manual. Send only the defective disk. After the thirty day grace period, you'll need to return your original disk and $5 for shipping and handling.

We will not accept returns for incompatibility, wrong machine type or any reason other than defective disks.

Shipping & Handling: Add $3 for shipping and handling on each order. Orders will be shipped via UPS whenever possible. For faster service, add $7 for Blue Label (two day) delivery service. For international orders, shipping fees will be added at their actual cost.

Payment: We accept MasterCard, Visa, U.S. check or money orders. Schools can use Purchase Orders.

BRCC Membership
Big Red Computer Club

Check out the benefits of belonging to the Big Red Computer Club. As support of the Apple II continues to wane there are few organizations that are as firmly committed to supporting the Apple II as Big Red. Big Red was founded in 1981 to benefit those people, who because of geographic or personal reasons, don't belong to a local User Group. Now membership has grown to over 8,000 members from all 50 states and from over 30 foreign countries.

As in the beginning we continue to be firmly committed to the Apple II family of computers.

How to Join: Membership is $9.95 in the U.S., Canada, and Mexico. Foreign memberships are $17.95. Members will receive 6 issues of Scarlett. To join, simply mail us your name and address along with your payment. Or phone in your membership by calling us at (402)-379-4680 or by fax (402)-379-3361. Payment may be made with cash, U.S. check, money order, VISA or Mastercard.

BENEFITS OF MEMBERSHIP

Scarlett
6 issues of the newsletter called *Scarlett* covering technical issues, Apple updates, product reviews and more.

Public Domain Software
A software library of over 3000 of the newest and best public domain and shareware programs.

Technical Support
Technical support available by phone weekdays from 10:00am-4:00pm.

Commercial Software
We are the publisher of many Apple II programs.

Big Red Software Products

Here are 9 titles from Thunder Mountain Software. These titles are in a retail bubble pack, and would be great for stocking stuffers. Order them separately for $5 each or all nine for $27.90.

STAR MAZE - Ages 8 to 12 - Teaches a wide range of basic division skills. In a captivating outer space setting, children guide a friendly alien through division mazes and back to its home planet. Product number TM01 for $5.

NUMBER BOWLING - Ages 11 and up - Number Bowling helps children master the basics of fraction and decimal skills. In the motivating context of bowling competition, children must solve decimal and fraction problems. Answering a problem correctly in two seconds or less means a strike. Order product number TM02 for $5.

FROG JUMP - Ages 4 to 8 - Designed to motivate children to practice fundamental mathematical skills. In competition against the computer or against a friend, children practice basic counting and ordering skills. Order product number TM03 for $5.

SCOTT ADAMS' ADVENTURELAND - Graphic Adventure - Wander through an enchanted world trying to recover the fabled Thirteen Lost Treasures. On your quest, you will encounter wild animals, magical beings, perils, and puzzles. But can you find your way out of the terrible Maze of Pits? This version features high resolution graphics. Order product number TM04 for $5.

TRIAD - Ages 10 and Up - Takes your old favorite, tic-tac-toe, and adds luck, skill, suspense, excitement, danger, and a generous helping of fast-moving, high-energy graphics. You win by capturing three squares in a row, but unlike regulation tic-tac-toe, these squares fight back. Order product number TM05 for $5.

VOODOO ISLAND - Interactive Fiction - You awaken on a Caribbean island, surrounded by a powerful feeling of evil. Footsteps in the sand tell you that you're not alone. Your spine tingles; your pulse races; your goal is clear: find the source of evil and destroy IT before IT destroys you! Order product number TM06 for $5.

FORBIDDEN CASTLE - Interactive Fiction – A menacing force summoned you here, but where are you and who are these creatures? Find a way to get out, or to get them, before it's too late. If you're not quick and cagey in this all-text adventure, the inhabitants of the Forbidden Castle will seal your fate - forever! Order product number TM07 for $5.

THE MIST - Interactive Fiction - Just another Saturday until a shadow descends and someone shouts, "The fog! Enter Stephen King's world of terror, if you dare, and discover that the nightmare is just beginning... Order product number TM08 for $5.

SONGWRITER - Whether your musical skills are limited or extensive, with Songwriter you can be playing your own tune in 15 minutes. Build your musical knowledge while you create original musical scores. Order product TM09 for $5.

Neuromancer™: With your futuristic portable computer "deck" you descend into a dimension created through your brain called cyberspace. Based on the novel by William Gibson, you will be thrilled with the adventure and fast action of the future. **Order product number IP08 for only $10.**
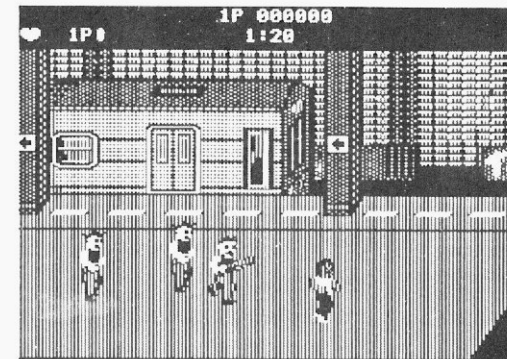

Renegade™: They've got clubs, chains and blades. And it's three against one. Use your fast fists and killer kicks to fight your way through six levels of motorcycle gangs and skinheads. This game has a copy-protection scheme which causes it to fail after the second level on many Apples. **Order TA06 for *free* with any order over $20.** If it works for you, then GREAT! Otherwise, reformat the disk. No returns or replacements on this item.

Dragon Wars™: This role-playing fantasy has you in the legendary paradise of Dilmun where King Drake has you imprisoned in a cesspool called Purgatory. You must defeat the evil and mighty sorcerer Namtar with only your wits and your magic. Enjoy endless combat for a superb adventure. **Order product number IP07 for $15.**

clam trapped in a kelp bed. Survive by avoiding the jelly fish. Gobble the diatoms, and search out the power pearls as your main source of defense. **Speed Maze** challenges you to navigate a randomly generated maze as fast as you can... and you select the speed. The maze generating algorithm is a fascination if you're a programmer.

NG14- Electric Arcade: Formula Nibble puts you behind the wheel of a Grand Prix racer taking the curves at top speed. Select your actual Grand Prix track in Hi-Res color and start your engine for high-octane excitement. **Voratio** is the space worm with the giant appetite. Guide it through 19 levels of play in search of food. **Othello and Seawolf** is a two-game pack with the ancient strategy game and a simulation of torpedo warfare in Hi-Res. This program requires a joystick/game paddles.

NG17- Attack Pack: Surprise Attack pits your skill and defensive missile bases against a hoard of incoming ICBMs. You must be quick to save six cities. **Major Mayhem** puts you on a spider planet, where you must traverse a web of alien cities and collect enough high energy spheres to escape. **Barricade** is a two-player game of luck and strategy. Use a giant claw to demolish a wall of colored blocks, and pick the high-scoring blocks. But watch out for the mystery blocks! **Starlaser** puts you at the helm of a laser starship. Battle the Kloryon starbases before your fuel is exhausted. Be careful of the notorious Kloryon sneak attacks from the meteor belt.

NG18- Nibble Game Room: Connection challenges you to compete with your Apple for territory on the Hi-Res screen. Think it's easy? Your Apple gets better the more you play! **Pyramid** is a brain squeezer solitaire card game in Hi-Res graphics. Disassemble the pyramid of cards... and plan ahead to win. **Chinese Checkers** pits you against your Apple in this classic strategy board game. Your Apple is a tough competitor. **Fiver Dicer** is a Yahtzee-like dice game, and you'll need luck and skill to win. Compete with your Apple or a friend...it's fun.
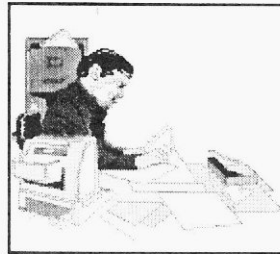

HOME MANAGEMENT

NH01- Shopper: Super Shopper maintains a master list of up to 1,600 items for printing customized shopping lists by category and/or location. **Coupman** keeps track of money-saving grocery coupons for optimal shopping and saving. Organize, weed out, search and sort with ease. **Recipe Box** keeps your personal recipes on disk for quick and easy menu planning. It even expands the recipe ingredients for parties - a big time-saver in the kitchen.

NH08- Calendar Library: Nibble Desk Calendar is a quick reference for staying on schedule with important events. Highlight a date and create a list of everything that is happening.

Personal Appointment Calendar keeps a whole year of appointments at your fingertips with fast easy editing and printing. **Quick Calendar** prints a full year's calendar on a single page for any year you select.

NH10- Database Library: Executive Card File puts the power of electronic index cards at your fingertips. Each card file can have up to seven sections with 35 cards in each section, and up to 500 characters in each card. You can sort, edit, remove, display and print categories and groups with speed and convenience with this free-form database. **Nibble File Cabinet** meets a wide variety of home and business needs for information storage and retrieval. Variable length records with key sorts help you modify, rearrange, and display your data the way YOU want it. **Applesoft Record Command System** is a fast advanced information control program that files, sorts, prints, merges, and even sends data over the phone lines.

NH12- Free Time: Garden Planner is a fantastic graphics designer for vegetable and fruit gardens. Plant your garden row by row in Hi-Res graphics and get the costs and projected harvest instantly. Shift your planting until it's just right. A planting guide gives everything you need to know about 45 common vegetables. **Outliner** is an idea processor with pull down menus and cut-and-paste editing. It's great for organizing your thoughts, schedules, projects, and plans in outline format. **Tape Library** helps solve the mystery of what's where in your audio or video tape library. It lets you know what you've recorded and where the open space is for your next recording. **Jogger** is like having a coach in residence. It tracks your daily running progress and it can be easily adapted for other distance sports like swimming and bicycling.

NH13- Nibble Home Office: QuickWriter gives you the convenience of electronic typing for those quick and easy typing jobs. It will finish the job before your regular word processor is even loaded. **Poster Creator** turns your favorite Hi-Res or Double Hi-Res art/graphs into GIANT posters up to 24-sheets big - without special hardware other than a printer. **AppleWorks Automated Check Register** is a super template for organizing your personal and business checkbook.

NH16- Home Manager: Message Center puts an electronic bulletin board to work in your home/office. Display reminders at pre-set times, or notification of meetings, or personal notes for special people. **Energy Squeezer** helps take the heat off your energy bills with easy, spreadsheet-like entry of energy usage. Learn where to save. **Bill Keeper** is a powerful, menu-driven home accounting system that gives you up to 40 separate accounts for expense tracking.

Zork Trilogy™: Welcome to ZORK! You are about to experience a classic interactive fantasy, set in a magical universe. The Zork Trilogy takes place in the ruins of an ancient empire lying far underground. You, a dauntless treasure-hunter, are venturing into this dangerous land in search of wealth and adventure. Interactive fiction is a story in which *you* are the main character. Your own thinking and imagination determine the actions of that character. Now you can get three "classic" text adventure games in one great package. Search for treasure and wealth in the ruins of an ancient magical empire far underground. Order product number BR08 for $15.
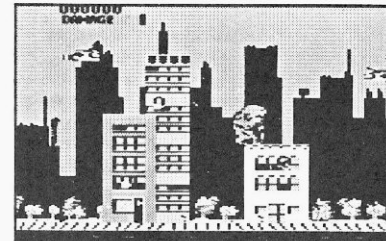

Rampage™: All the features of the original arcade hit! Choose to be either George (King Kong), Lizzie (Lizard Man), or Ralph (Wolfman). There are 147 cities to turn into total trash by smashing skyscrapers, knocking helicopters out of the sky or eating the tasty civilians. Order product number BR15 for $15. A joystick is recommended.
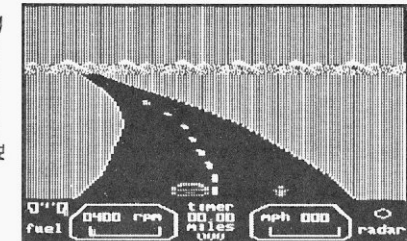

The Great American Cross Country Road Race™: Think fast! Which route? Which city? What about weather, fuel, and road conditions? Don't forget the competition. The finish line's 3,000 grueling miles of traffic, terrain and speed traps away. The rally will have your mind racing as fast as your car. Run the race of your life. Order product number BR09 for $15.

Hitchhiker's Guide to the Galaxy™: This text adventure is based on the Douglas Adams' book by the same name. You play the role of Arthur Dent, a rather ordinary earth creature who gets swept up in a whirlwind of interstellar adventures. This story pokes fun at the whole universe. Order product number BR17 for $10.
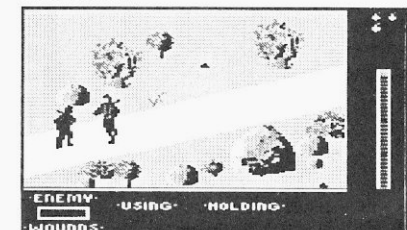

The Last Ninja™: This arcade game features fierce Ninja fighting. There are henchmen to deal with at every corner. Use your numchukas, shuriken throwing stars and swords to reclaim the sacred island of Lin Fen. Order product number BR16 for $15. (Requires 128K of memory and a joystick)

Browse through these Nibble Classics and see how easy, fun, and inexpensive buying software can be. Nibble magazine was selling these for an average of $20. **With Big Red, pick any of these for only $5.00. If you order 10 or more disks, you get the programs for only $4.50 each.**

CHARTS & GRAPHS

NA01- Turtle Library: Turtle BASIC adds 24 special turtle commands to Applesoft to direct the "turtle" around the Hi-Res screen. Print words, create animation and designs. The turtle responds to your every wish. **Apple Turtle Graphics** is an advanced turtle system that runs faster and has additional versatility. This logo-like control language is excellent for conceptualizing math and geometry, or just having fun. **Turtle Tutor** is a demonstration library that shows you how to design your turtle pictures, combine them...and even do 3-D effects.

NA02- Designer/Illustrator: Designer and Illustrator let you create complex graphics for title displays, layouts, or even planning landscapes/floor plans. **The Illustrator** creates the shapes. **The Designer** combines, scales, colors, edits, rotates, and redraws them in medium resolution graphics. **The Shape** is invaluable for creating your own graphics shapes. Design free form shapes in Low-Res graphics and they're instantly converted into Hi-Res shape tables for use in other programs.
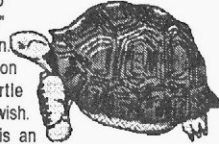

NA04- Presentation Library: Chart Manager transforms your data tables into scatter plots, pie charts and bar graphs. It even does basic statistical analysis and linear regressions for financial analysis and forecasting. **Banner Boss** creates custom, eye-catching banners up to 255 characters long, printed with letters up to five inches high. **Color Billboard** makes your Apple an electronic billboard with smooth, fast text scrolling and up to 15 colors. Great advertising! **Solid State Slide Show** shows a fast moving sequence of Hi-Res screens with the speed of a slide show. Display up to 18 pictures for presentations.

NA05- Graphics Programmer: Hi-Res Houdini performs Hi-Res magic with your programs. The graphic effects are amazing with scrolling and shifting images, changing shape colors, inverting colors, and merging, copying and swapping pictures on both screens. **Hi-Res Fill / Reverse** lets you specify any rectangle and instantly fill it with the color you select - then use Reverse for explosion. **Graphics Toolbox** is a great special effects tool for switching and inverting Hi-Res pages or superimposing them on each other. **Amper DHR** taps Double Hi-Res screens for sharper images and adds Applesoft commands for simulating normal Hi-Res graphics. **Eye Openers** add pizzazz to your programs with iris/dissolve screen transitions to new images.

NA08- Font Foundry: The Font Foundry is a character generator and editor for designing one-of-a-kind Hi-Res fonts - print shop perfect! **Double Hi-Res Characters** prints legends and captions with a variety of special character sets, including the DOS Tool Kit format. **Print Shop Utility** captures a Hi-Res screen section that you select, and imports it into Print Shop. **Font Blaster** lets you use dozens of Tool Kit typefaces or create custom characters for the Imagewriter and Prowriter...just like a Mac!

DISK UTILITIES

ND06- Disk Librarian: Disk Librarian Pro catalogs all your disks and creates a quick reference master list. It also handles ProDOS, DOS 3.3, and Pascal files. You can print, sort, and display the file names, and transfer the list to AppleWorks. **Sector Stretcher** gives your files room to grow by clearing 45 extra DOS 3.3 sectors for programs and data. Defer the dreaded DISK FULL message. **RAM Disk II** adds 16K of fast electronic RAM disk to your system. It's super for often-used utilities and all the DOS 3.3 commands can be used. **Diskoverer** is a fast, powerful disk zap program for DOS 3.3. Read, display, edit, and write to any disk sector in any of three ASCII formats. You can page through the file looking for damaged data, repair it, and write the corrections.

EDUCATION

NE01- Classroom Manager: Nibble Grade Book tracks test scores and calculates grades for up to 10 classes of 80 students each. Grade Book builds grade points and percentage grades. You can assign letter grades and determine the mean grade and standard deviation of tests. You can even drop the lowest test grades and adjust scores for an entire class. Super tool for teachers! **Personal Appointment Calendar** keeps a whole year of appointments at your fingertips with fast easy edit and printing. **Executive Card File** puts the power of electronic index cards at your fingertips. Each card file can have up to seven sections with 35 cards in each section, and up to 500 characters in each card. Sort, edit, remove, and print categories and groups with this powerful free-form database.

NE02- Tadpole Tutor: Tadpole Tutor helps your preschooler learn the alphabet in a lively, fun arcade game. **Bouncing Numbers** is a brisk Hi-Res number recognition game for preschoolers. **Apple Time Tutor** uses the Hi-Res graphics screen for several different clock formats and levels of difficulty in learning to tell time. **Counting Quiz** uses graphics to help youngsters along with their counting skills. **Father's First Programs** is a collection of four entertaining graphics programs designed for tots.

NE04- Words And Numbers: Flash Card takes the drudgery out of math drill! Control the speed and number of chances for the correct answer. Successes and misses are plotted with a color bar, and errors can be reviewed. **Word Find** lets you make customized hidden word puzzles of any size up to 40 rows and columns. Then print them with clues and a separate answer sheet. The program requires a printer. **Trivia Master**

The best collection of game software for the Apple IIe & IIc.

One on One™: Go one on one with the greatest. You can be Dr. J with all the moves, twists and turns. Or you can be Larry Bird with intimidating defense, dominating rebounding and the devastating outside shot. It's the combination of their real life features and your skill for a winning combination. Order product number EA01 for $6.
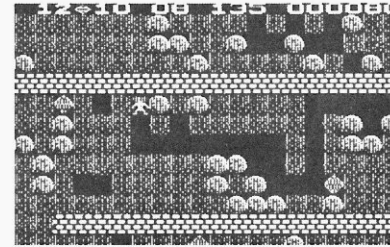

Super Boulder Dash™: A classic arcade game. Dash through the levels collecting enough diamonds to advance. But watch out for those falling boulders. Order product EA31 for $6.

Archon II™: It's a struggle between Light and Darkness as a contest of action and strategy. Like chess with wizards and dragons for pieces but when one lands on the other be ready because you have to fight it out in the best of arcade battles. Order EA02 for $6.
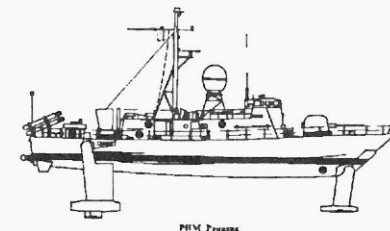

PHM Pegasus

Pegasus™: As a top graduate of the Naval Academy you have been selected to be the one to command the PHM PEGASUS, a new hydrofoil. Of course, you must learn its operation and be prepared for some of the most dangerous assignments around the world. This craft with its speed and fire power is perfect for patrol and strike missions. Experience the thrill of being a hero on the high seas. Order product EA30 for $10.

Earth Orbit Station™: With the Earth Orbit Station you have been chosen to assume the roles of Space Directors. Your goal is to build space stations, conduct research, market products, and compete against each other in an effort to expand the wealth, technology, and knowledge of the human race. Missions may range from pure research to the search for life in the far reaches of the cosmos. A full simulation on the way life may be in the future. This program does not work on the Apple IIGS. Order product number EA38 for $6.

Adventure Construction Set™: Build the fantasy games of your dreams with one of the greatest adventure creativity programs ever. It uses simple construction tools and menus, 3 different sets: Fantasy, Mystery, & Sci-Fi, 13 kinds of magic, up to 240 rooms and more. Use the finish option to let the computer finish the design. Order product number EA12 for $6.
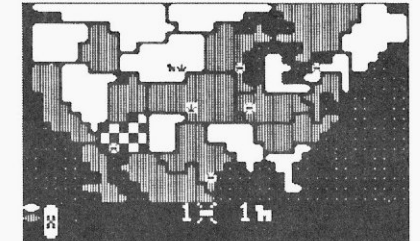

Lords of Conquest™: The world is your battlefield, world conquest is your goal. Simple enough for a beginner-complex enough for an expert. This game is similar to Risk but played on a computer. Order product number EA33 for $6.

Movie Maker™: This is an animated program that helps you draw shapes, create sequences of shapes, add sound and play back the results to make your own movie. Then when you really like it, record it to your VCR. Order product number EA05 for $6.

Age of Adventure™: Spend hours in heroic pursuits in distant lands with two full scale games in Ali Baba and the Forty Thieves, and the Return of Heracles. You are the hero, you claim victory or defeat. Order product EA15 for $6.

JOYSTICK REQUIRED: Many of the games for the Apple IIe and IIc require a joystick. If you don't have a joystick, please check with us before ordering.
MEMORY REQUIREMENTS: We assume that Apple IIe's and IIc's have at least 128K of memory. If you have less memory, please check for specific memory requirements.

THE *New* Print Shop

The New Print Shop™: It's as if you have your own personal print shop. With the New Print Shop™ you have more flexibility than ever to design and print cards, stationary, flyers, calendars, banners, giant size posters and even wrapping paper. Maybe you want to make a 6 foot by 9 foot poster saying "Welcome Home Dad" to hang on the garage door. Maybe you want a personalized calendar in daily, weekly and yearly formats. Whatever it is you'll be amazed at how professional it all looks and better yet, how easy it is to use. Be sure to pick out some extra graphics disks because with The New Print Shop™ you can get that special look by including graphics on all your creations. **Order product number BS04 for $33.50.**

The New Print Shop™ Graphics Disks: Optimize your creativity with these add-on disks by including their multi-colored graphics, fonts, and borders in your The New Print Shop™ greeting cards and banners. Choose from an incredible selection at only $3.50 per disk. Order ten or more and they are only $3.10 per disk. Each disk comes with a printed chart showing you exactly what's on the disk.

P50 - Multi-Color Graphics
This disk contains over 30 different multi-colored graphics whose themes are sports and travel.

P51 - Multi-Color Graphics
This disk contains over 30 different multi-colored graphics whose themes are school mascots and holidays.

P52 - U.S. States Graphics
This disk contains mono-colored small and medium graphics of all 50 U.S. state maps.

Pick any of these add-on disks for The New Print Shop for only $3.50 each. If you order 10 or more disks, you get them for only $3.10 each.

P53 - Full-Panel Graphics
This disk contains full panel graphics for use with greeting cards. There are mono and full-colored panels on this disk.

P54 - Letterhead Graphics
This disk contains letterhead panel graphics for use with letterheads of calendars. There are both mono and full-colored panels on this disk.

P55 - Script Fonts
This disk contains fonts which have been converted from IIGS-

type fonts. They are fully compatible with The New Print Shop.

P56 - Small-Sized Fonts, P57 - Medium-Sized Fonts, P58 - Billboard Fonts, P59 - Fancy Fonts, P60 - Crazy Fonts
These five separate disks contain fonts which have been converted from IIGS-type fonts. They are fully compatible with The New Print Shop.

P61 - South of the Border
This disk is full of borders for use with The New Print Shop.

P67 - Holiday Multi-Color Graphics
This disk contains 48 different multi-colored graphics with a holiday theme. There is an angel, five different Santa Clauses, a turkey, Easter bunnies, and many others.

P68 - Animal Multi-Color Graphics
This disk contains 80 different multi-colored graphics with an animal theme. There are pigs, butterflies, dinosaurs, and many others.

P69 - Fancy Letter Multi-Color Graphics
This disk contains two different sets of alphabet letter graphics for use with The New Print Shop.

P70 - Black & White Christian Graphics
This disk contains 120 different graphics which have a Christian theme such as the Ark, Bible, Joseph, Moses & Elijah.

P71 - Black & White Farm Graphics
This disk contains 120 different graphics which have a farming theme such as a barn, a pig, a truck and a tractor.

ANDREW   ARK   BABEL   BALAAM.ASS
CASTING.NET   CAUGHT   CEADER   CENTURIAN
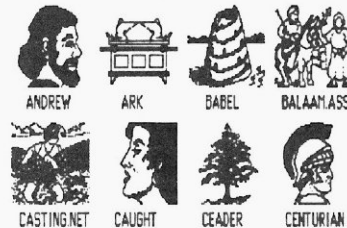

P72 - Black & White Christian Graphics
This disk contains 120 different graphics which have a Christian theme such as those shown above.

P75 - Life of Christ Print Shop Graphics
There are 120 finely-detailed graphics on this disk which depict episodes from the life of Christ. The graphics are black and white.

Thexder™: In this action arcade game you must pilot a robot through multiple attack scenarios. The robot transforms into a fighter jet (and back again) at the touch of a button. Order product number HW09 for only $15.
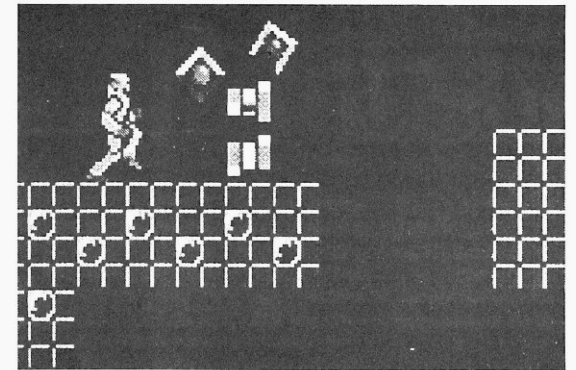

Thexder™
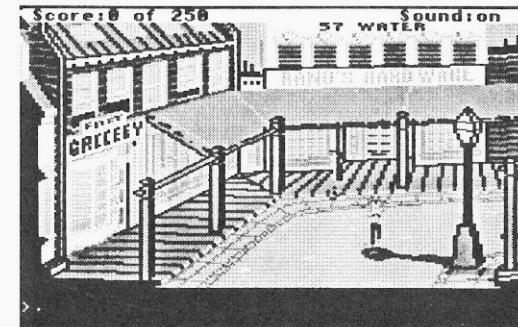

Gold Rush™: Sell your land, pack your bags and catch the next ride out! Fortune lies just 2,000 miles away in the gold fields of California. This game is great for elementary students because it gives them a chance to relive one of America's most exciting eras. Order product number HW07 for $20.

Gold Rush™

Mixed-Up Mother Goose™: This game is for ages 4 and up. It puts the children in the role of a hero as they wander through an enchanted land trying to repair the broken rhymes of Mother Goose. When a rhyme is repaired, it comes to life with great animation and music so that children can sing along. Order product number HW14 for $15.

Mixed-Up Mother Goose™

Oregon Trail™: Participate in exciting new experiences as you hunt buffalo, raft down rivers, and make many important survival decisions. Journey back to 1848 as you move your family from Missouri to Oregon. Hundreds of variations keep the game new, exciting and challenging each time you play. **Order product number MC01 for $29.**

Oregon Trail™

```

WHERE IS CARMEN SANDIEGO?™

All of the versions are very similar in the Carmen Sandiego series, in that you play the role of a detective and you've been assigned to capture the world-famous thief Carmen Sandiego. Give your children something to think about with these learning games from Broderbund!

Where in Time is Carmen Sandiego?™: Designed to bring history to life. People, events and inventions of the past 1500 years are highlighted. Carmen and her gang travel back in time with a time machine to steal Queen Isabella's jewels, the Magna Carta, and Christopher Columbus' sextant. Priced at $31. Order product number BS16.

Where in the U.S.A. is Carmen Sandiego?™: This version is best for younger kids because it is the easiest. It will teach your students about this great land. Third graders should be able to conquer it with some help from an adult. Priced at $31. Order product number BS36.

Where in the World is Carmen Sandiego?™: An exciting way to learn world geography as you track down criminals. Includes a World Almanac. Priced at $31. Order product number BS15.

Where in America's Past is Carmen Sandiego?™: The latest adventure in the Carmen series turns history into a fast-paced detective adventure, taking you through America's history from 986 AD to the present. Join the ACME Detective Agency and chase the notorious Carmen Sandiego and her gang as they steal famous objects from America's past. Priced at $33.50. Order product number BS17.

Where in Europe is Carmen Sandiego?™: This mystery exploration game has students track down thieves around the nations of Europe. Learn about Europe with Rand McNally's Atlas of Europe, included to help decipher geographic, economic and historic clues in an exciting, sleuthing situation. Priced at $31. Order product number BS46.

WHERE IN AMERICA'S PAST IS CARMEN SANDIEGO?
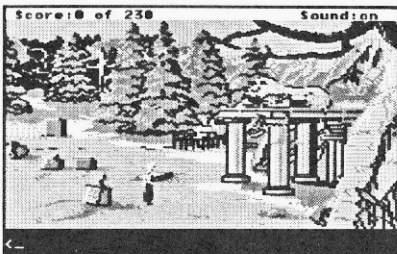

King's Quest™

King's Quest I - Quest for the Crown™: Use a joystick or a keyboard to move Sir Graham as he walks, jumps, ducks, swims and climbs through 80 screens of adventure. As you explore the Kingdom of Daventry you will unravel its many mysteries. Order product number HW01 for $20.

Kings's Quest II - Romancing the Throne™: Second in the series, this game features 100 3-D, animated screens and 14 musical tunes in various sections of the game. Order product number HW02 for $20.

King's Quest III - To Heir is Human™: The complex and intriguing adventures of King Graham continue in this 3-D animated game. This is the story of Graham's children, as seen through the eyes of Gwydion, the evil Wizard's slave. Gwydion must learn to master the wizard's spell book. Order product number HW03 for $20.

King's Quest IV - the Perils of Rosella™: Discover strange lands and reveal hidden secrets. This game contains exotic characters and an introductory cartoon that spans close to ten minutes. Rosella voyages to save her ailing father's life. Order product number HW04 for $20.

Police Quest™

Police Quest™: A 3-D animated adventure game that puts you in the role of a police officer in a Mid-America town. Work your way from a street cop to underground narcotics agent in a quest to bust a big-time drug dealer nicknamed "The Death Angel". Includes a policeman's indoctrination guide and activity map. Order product number HW05 for $20.

Manhunter™

Manhunter - New York™: You are trapped in a violent world where evil is rewarded and goodness despised. Terror lurks around every corner as you travel through a "new" New York. Order product number HW08 for $15.
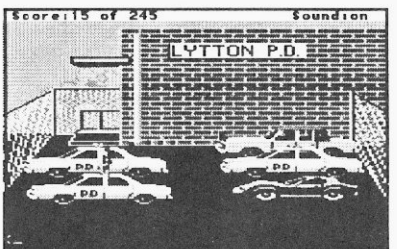

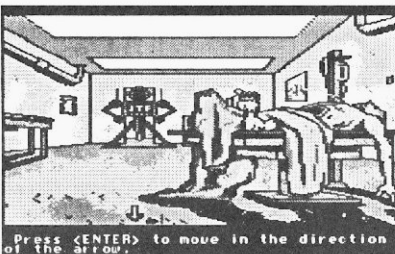

Space Quest™

Space Quest - The Sarian Encounter™: You will board enemy space ships, explore alien landscapes and encounter weird creatures in this tale of action and adventure in deep space. It features 3-D graphics, arcade sequences and an inventive plot. Order product number HW11 for $20.

Space Quest II - Vohaul's Revenge™: Once again, you Roger Wilco, sanitation engineer and involuntary hero, must don your sanitary space mittens and prepare for the onslaught of evil that Vohaul has prepared. Order product number HW12 for $20.

High Quality Print Shop-Compatible Graphics from Unison World

We felt fortunate to pick up the close out inventory of Unison World. Originally written to complement the PrintMaster Plus program, these graphics can be used with other print programs such as the "classic" Print Shop™, Publish It™, Children's Writing and Publishing Center™, Labels, Labels, Labels™, and other programs. These are boxed programs, full of ready to use, high quality graphics. Originally sold for more than $40 each you can now get them from Big Red at only $10. All of the graphics in the Art Gallery I & II, and in American History are on DOS 3.3 disks in the "classic" Print Shop format. They can be used directly with any program that supports this format. You can use any number of graphic conversion programs to convert them to a format that your favorite program uses.

AMERICAN HISTORY GRAPHICS

The American History Gallery is the cream of the crop. It includes over 350 graphics. Starting with Columbus and ending with the launch of the space shuttle, the artwork covers people, places, and events in America's past. Every state and president, along with such scenes as the Pilgrims landing on Plymouth Rock, Eli Whitney's cotton gin, the Civil War, and much, much more, are included for your use. The program includes a 140 page user's guide with ten sample lesson plans that educators can use to integrate the graphics into their classroom. **Order product number UN04 for only $10.**

With **Art Gallery I** you will get over 100 pictures to help you with your creations. The program includes great graphics such as: holidays, animals, office items, sports, signs of the zodiac, background patterns and much more. **Order product number UN01 for $10.**

In **Art Gallery II** you will get 104 fabulous pictures to help you say it in your own way. Choose from international flags and symbols, ornamental letters, people, and much more. **Order product number UN02 for $10.**
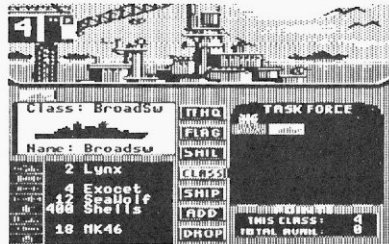

Strike Fleet™

Strike Fleet™: A naval task force simulator. Configure your task force of vessels with frigates, destroyers and cruisers. Then deploy the strike fleet to defend the Persian Gulf. You can choose 10 different scenarios around the globe. There are many special effects including 3-D graphics. Order product number EA20 for $10.
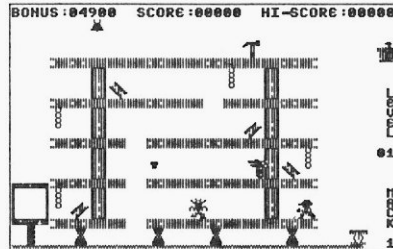

Hard Hat Mack™

Hard Hat Mack™: You are on a frenzied pace around the construction site to stay ahead of the Vandals and OSHA. Watch out for the dynamite and other obstacles, set those girders in place, grab the rivet gun and the other tools you need. You are the one that can get Mack to the top and win! Order product number EA09 for $6.
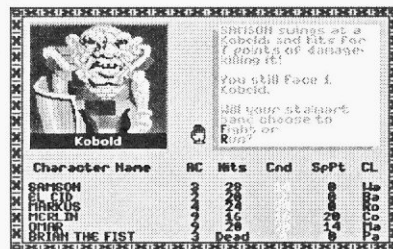

Bard's Tale™

Bard's Tale™: The city of Skara Bare is threatened by the evil Mangar. You must find him and "persuade" him to release his evil control over the city. Of course he is protected by layers of obstacles, mazes and evil henchmen. This game is a true adventure to challenge you and to hone your skills. Order product number EA16 for $10.

Pinball Construction Set™

Pinball Construction Set™: You build them, you play them. Unlimited creative power with up to 128 parts per game. Real pinball sounds. Reverse gravity, alter the laws of physics. You have total control. It's a world of pinball that no machine can match. A joystick is required. Order product number EA04 for $6.

Skyfox™

**Skyfox™:** Use your laser cannons, heat-seeking missiles, and guided missiles to destroy the tanks, planes and other aircraft that the enemy throws at you. Choose among 5 ranks, 15 scenarios, and earn your wings. Order product number EA06 for $6.

Arctic Fox™

Arctic Fox™: A gang of aliens have taken over the South Pole. Their air converter towers are rapidly changing Earth's atmosphere to methane. Earth's only chance is a sleek high-tech snow tank and you. Save the planet. Order product number EA28 for $6.

comes with a file of 200 questions, and you make up and add your own! You can adjust and create different levels of difficulty to make it challenging and interesting for all ages. **Life** is a fast moving graphics version of the classic from Scientific American. Set up a starting colony of cells and see them grow, migrate, and evolve in completely unpredictable patterns. It's unique! **Universal Metric Converter** converts English and metric units with menu-driven ease. What's your weight in kilograms? Converter has all the answers. **Binary Clock** is an unusual timepiece that displays the time in Lo-Res graphics in 8-4-2-1 binary computer code. It's educational and fun to watch.

NE05- Mathemagician: Math Monster makes scary fun out of math learning. Solve the multiplication or division problem before the math monster munches it. Correct answers let the little professor run across the screen and whack the math monster soundly. **Mathemagician** is an adventure in math word puzzles where correct answers unlock doors, lead to hidden treasures, and escape lethal perils. **Math Concentration** puts a new twist on the classic game theme. Uncover the matching pictures and solve the problems in order to win. **Math Marathon** covers all four math functions and varying levels of difficulty will help your children run for better grades. **Apple Trig** plots your favorite trigonometric functions in Hi-Res graphics... even overprint different functions to make comparisons. Graph the sine, cosine, tangent, cotangent, secant and cosecant functions with ease.

NE08- Science And Fun: Nibble Planetarium is a Hi-Res graphic star charting system that displays the sky from any spot in the Northern Hemisphere at any time of year. A special option lets you watch the sky change with passing time, and it includes a special bonus file of all the major constellations - over 600 stars! **The Serpent's Coil** traces the path of hurricanes as they snake through the Caribbean toward the U.S. Track storms on the Hi-Res screen and scale and label them for printing - includes plots for eight historic hurricanes such as Camille in 1969 and Alicia in 1983. **Direction Fields** displays intricate patterns of air flows, magnetic fields, wind directions, or whatever phenomena you can specify with mathematical functions. For fun, you can simply create entertaining abstract patterns.

NE14- It's Fun To Learn: Shark challenges youngsters to save the fish from being gobbled up by solving math problems...and getting bonus points for speed. The problems get more difficult as the game progresses. **Spelling Maze** is a no-fail game that lets kids move through a graphic maze picking up letter-keys in the correct order to open the exit and escape. **Learn the USA** uses map graphics to teach the location and capital of the 48 contiguous states. It tracks incorrect answers and measures progress. **Keyboard Tutor** displays a graphic keyboard with prompts for key/finger practice and accuracy tests for typing. It includes on-screen help and fast animation of finger-to key visuals. It's outstanding.

BUSINESS & FINANCE

NF01- Personal Investor: The Investor contains five different reports, including market, sales, and yield analysis. Powerful Hi-Res graphs plot short-term and long-term market trends for each stock, together with high-low-close, and price strength to aid in making better buy/sell decisions. **Price File Editor** works with The Investor to manage, sort, delete, and add new records.
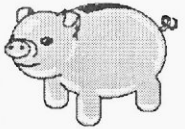

NF02- Investment Analyst: The Broker tracks the performance of your investments and graphically displays the market values and profitability. It includes a variety of report options. **Nibble Investment Advisor** calculates return on investment, dividends, and overall "bottom line" results for up to 96 investments. **Stock Analyst** develops a history of your stocks, and tracks performance and value of individual stocks and your entire portfolio.

NF03- Home Finance Manager: TRAC monitors your credit card, cash, and check spending. It prints more than 10 different reports for managing your budget. It's great for seeing and controlling where your money goes. **TRAC Budget** is a flexible, fast budget system that works with TRAC to compare spending plans with actual expenses. **TRAC Income** adds a third module for generating monthly income statements and year-to date reports. **TRAC Graph** rounds out the package with Hi-Res graphics for quick visual analysis.

NF07- Small Business Tools: The Forms Shop creates customized letterhead, business forms and stationery in a variety of different typestyles. **Appleworks Plot** adds a Hi-Res plotter to **AppleWorks**. Print out graphs of spreadsheet or database data, or save them to disk. **Quick Calendar** prints a full year's calendar on one page. Printer is required.

GAMES

NG05- Commander: Nibble Beach Head puts you in command. Weave your way across the beach avoiding snipers, machine guns, mortars, barbed wire and mine fields to capture the enemy gun emplacement. **Tank Combat** challenges your strategy and foresight to defend your HQ, ammo dump and fuel depot against incoming enemy fire. Command your six tanks carefully to win! **Artillery Duel** is a realistic simulation with a twist of math. From opposite sides of a mountain, you shell the enemy's artillery position, judging fire power, barrel elevation, and a fickle wind to survive. **Atlantic Convoy** is a graphic battle for the Atlantic. Maneuver your fleet of carriers, destroyers, subs, and tankers into tactical position, and pick your engagements carefully or you'll be sunk.

NG10- Ghost Gobbler: The Nibbler is the classic dot-gobbler: eat all the dots in the maze while you avoid the voracious ghosts. Munch energy cubes for power, and progress through harder mazes. **Clam Bake** makes you the hapless, hungry
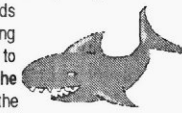

Labels, Labels, Labels™: This is our most popular Big Red software product. It allows you to create fancy mailing labels, name tags, and diskette labels in a variety of sizes. You can import "classic" Print Shop™ graphics, borders and fonts. There is a built-in database program or you can directly import database files from AppleWorks 3.0™. A nine-pin dot matrix printer is required. Color printing is supported on the ImageWriter II printer. **Order product number PS03 for $24.95.**

NW37 - Nibble Almanac: What happened 20 years ago today? What events occurred on that special birthday? These questions are all common fascinations with our own significant dates. For the answers use the Nibble Almanac. Data is included for the years 1948 through 1988 ranging from sports, literature, stars, and top news stories. It is also designed to allow you to enter your own information. You can also print out a birthday bulletin listing special events and people for that day. Makes for a unique and special gift. Requires a 3.5" disk drive.

NH14 - Nibblewriter is an easy-to-use 40 column word processor. It is screen-oriented and includes full word wrap, insert, delete, and more. **PrintWorks** lets you create and edit fancy fonts for your Hi-Res screen. You can really dress up your program displays with this one. **Print Studio** enhances your ImageWriter printing by helping you create your own fonts and special characters that can be intermixed with the printer's built-in font library.

Pick any of these Nibble Classics for only $5.00 each. If you order 10 or more disks, you get the programs for only $4.50 each.

NU07 - Clip Art & Friends - Nibble Clip Art lets you access hundreds of professional graphics from Print Shop, Minipix, Graphics Expander, and other libraries. Clip images, build files of up to 38 images for your own programs! **Labels Maker** produces unique, personalized address labels with Print Shop and Minipix graphics images. Select where to print the graphics and presto, it's done. **Imagewriter Color Control** is an AppleWorks preboot program that lets you select one of seven different Imagewriter II colors. **Write Correspondence** turns your Apple into an automated address filer and letter writer with this set of AppleWriter WPL programs. Select the address and it is inserted into your letter and saved for printing the envelope. Throw out the Rolodex!

**NZ02 - Hi-Res Alchemy • Survey Master • Disk Encripter
Hi-Res Alchemy** lets you to draw circles and ellipses for your Hi-Res graphics at machine language speed. It also gives you the ability to flip pictures and complement the colors of a picture. **Survey Master** gives you the ability to easily create a questionnaire for your survey. A data entry format is automatically setup to compile the results.

**NZ03 - Graphic Publisher • Chalk Math • Graphic Window
Graphic Publisher** has everything you need for a basic desktop publishing system and more. You can combine text and/or graphics on the Hi-Res screen and print it out on your ImageWriter. It includes a drawing and paint program where you can draw lines in any of eight directions in 8 Hi-Res colors. It is also a handy drafting tool for drawing your project plans.

Chalk Math is a fun easy-to-use program to drill children on addition and subtraction problems. **Graphic Window** allows you to have multiplane capability on your Apple II.

**NZ06 - B & W Studio
B & W Studio** is a program specifically designed for manipulating the monochrome graphics screens which provide the artwork for desktop publishing. You can do the standard transformations like flip-horizontal and vertical, negative, cut and paste. You can also slope your screen at any angle and many other things for interesting results.

**NZ08 - Nibble Geometry • Computies
Nibble Geometry** is a drill and practice program for mastering geometry. You work through figure recognition, areas in planes, areas in solids and volumes of figures. Learn with this easy to use menu based program. **Computies** is a computer rendition of "Wacky Wordies" seen in magazines and puzzle books. By studying the appearance or placement of words in an illustration you can decipher the entire saying. The computer can animate those placements for great fun.

**NZ09 - Nibble Sifter • Big Print Buffer • Lunar Lander
Nibble Sifter** will deformat your files so that when you transfer a file from another type of computer you will have the carriage return problems solved. It will allow you to merge lines within paragraphs, keep or delete blank lines, or convert double-spaced lines to single space lines. **Lunar Lander** is considered one of the classic arcade games of all time. The object is to descend to the surface of the moon, land, and dock again with your space station before your fuel runs out. To make matters more difficult there is a small alien pod chasing you.

**NZ10 - Hex Wizard • Interval Ear Training • High Roller
Hex Wizard** provides a full-screen editor which makes the entry and editing of machine language programs a simple task. **Interval Ear Training** helps you to train your ear to identify chords by identifying intervals. **High Roller** offers a dice game for either two players or one player versus the computer.

**NZ12 - BASIC Plus • Maze Maker • Screen Commander
BASIC Plus** adds Pascal-like logic to Applesoft. **Maze Maker** allows you to create any number of mazes in various degrees of difficulty. You can choose to display them on the screen or dump them to a printer. **Screen Commander** will allow you to store screens full of useful information on disk for later viewing or print them to your printer. Great for adding sample screens to your documentation.

**NZ17 - Quick Show • Screen Squeeze • Shape Builder
Quick Show** is a simple and elegant solution to the problem of displaying text on the hi-res screen. Used in conjunction with **Shape Builder** it can display characters of any height and width on your screen. **Screen Squeeze** will shrink any Hi-Res Screen image, both horizontally and vertically without loosing the color integrity. **Shape Builder** is an Applesoft program that allows you to create, view, edit, and save shape tables.
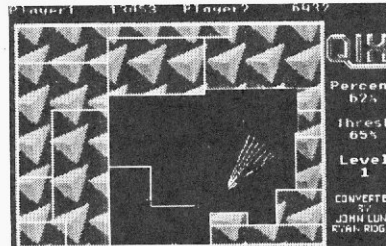

Shanghai™

Shanghai™: Shanghai is based on the ancient Chinese game called Mah-Jongg that dates back over 25 centuries. The object of the game is simple. Match the tiles on the screen, remove the matches and keep going until all of the tiles are gone. The strategy is much more complex. Success depends on the order in which you make the matches. A joystick is required. Order product number BR01 for $10.

Lode Runner™

Lode Runner™: In this classic arcade style game, you are a Galactic Commando. Your goal is to recover every last ingot that was stolen by the Empire. You'll be running, jumping, climbing ladders, and drilling passageways in your mission through 150 levels of play. You can also design your own puzzles and scenes with the game generator for continued challenge and fun. Order product number BS12. Priced at $14.

Wheel of Fortune™

Wheel of Fortune 3-Pack™: Now you can participate in the fun of the highest rated game show in the history of television in your own home! This special tri-pak contains the first, second, and third editions with over 3000 puzzles to keep you guessing. It's just like the real thing. Spin the wheel and choose a letter. It's hours of action and excitement with Wheel of Fortune. Order product number GT01 for $19.
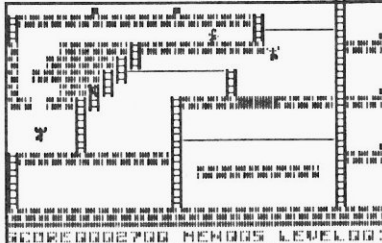

Jeopardy 3-Pack™

Jeopardy 3-Pack™: This is the chance to prove that you are as good as the contestants on TV. Select the category, choose the dollar value, and put your thinking cap on. This collectors pack contains the first, second, and sports editions of the ever popular game show. Be the star contestant and challenge your friends, or the computer. Put your thinking cap on for hours of fun. Product number GT02 for $19.

Qix™

Qix™: It's unlike any other game you've ever seen or played. Qix is a whirling multi-color helix that lives inside your computer – never resting. The object of the game is to neutralize Qix by trapping him within a carefully constructed space. But think and act fast, because Qix and its mutant offspring are trying to destroy you. One or two player action with the original rock music score. A joystick is required. The price is only $5. Order product number TA05.
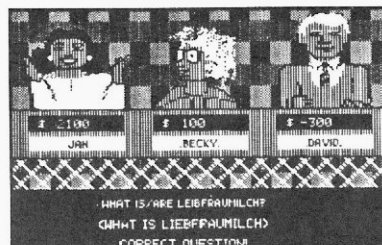

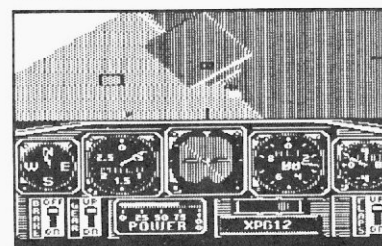

Yeager's Flight Trainer™

Chuck Yeager's Advanced Flight Trainer™: Climb in the cockpit with the greatest test pilot ever. Learn to fly 14 different aircraft the Chuck Yeager way in this flight simulation program. Scream toward earth at Mach 3 speed in an F-18 Hornet or SR-71. Or choose to fly the P-51D Mustang or the Sopwith Camel F-1 and perform aileron rolls, Cuban 8's or hammerhead stalls. Enjoy the best thrills and exhilaration in this special flight simulation program. Fly with the greatest. Order product number EA46 for $15. Joystick recommended.

Education 10-Pack

Education 10-Pack: Get ten disks full of some great public domain educational software. There's SunRaycer in which you design and race a solar powered car. Plus there are programs for learning about state capitals, fractions, and SAT tests. Send your child on a simulated moon walk or have your child learn all about the Hubble Space Telescope. **Order product number GP01 for $28.**

Game 10-Pack
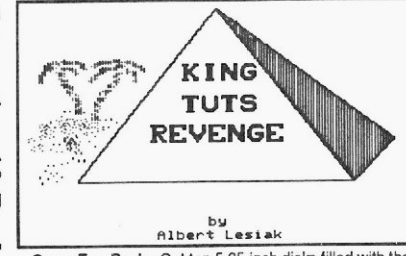

Game Ten-Pack: Get ten 5.25 inch disks filled with the best public domain games for the Apple IIe & IIc. Included are such greats as Defender, Mystery House, Tetris 2, Flobynoid, Rescue Fido, and King Tut's Revenge. A joystick is required for some of the games. You'll get hours of playing enjoyment for only pennies a game. **Order product number GP04 for $28.**

Print Shop 10-Pack

"Classic" Print Shop 10-Pack: This collection of graphics, fonts, and borders is designed to be used with the "classic" version of Print Shop or with Labels, Labels, Labels. It includes 6 disks of single-color graphics, 3 disks of fonts and 1 disk of borders. That's over 600 different items. Plus you get printed sheets showing what's on each disk. **Order product number GP03 for $28.**
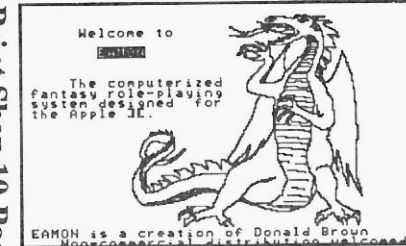

Eamon 10-Pack

Eamon Adventure 10-Pack: Eamon is a series of text adventure games for the Apple II. These games are based loosely on the Dungeon and Dragons role-playing games. The player starts the game in the Main Hall and purchases arms and learns magic spells before venturing on a quest. This pack includes the Eamon Master disk and the 9 highest rated adventures. **Order product number GP08 for $28.**

Beagle Bros 10-Pack

Beagle Bros 10-Pack: Over the years, the Beagle Bros company produced dozens of utility programs for the Apple IIe. Rather than completely discontinuing them, they released them to the public. This collection includes 10 of their most useful programs including Power Print, Extra K, Double Take, D Code, Pro-Byter, Big U, Shape Mechanic and Font Mechanic. Documentation is not included. All of the programs listed are ProDOS. **Order product number GP10 for $28.**

Ultimate 100-Disk Package

100 DISKS
for only
$99

Ultimate 100-Disk Package: One hundred 5.25" disks full of great public domain and shareware programs for the Apple IIe and IIc. And it's priced at less than $1 per disk. This package does not duplicate any of the disks which are included in the 10-Packs listed on this page. There are games, business, education, Print Shop graphics, clip art, utilities, fonts and AppleWorks' templates. Guaranteed to keep you busy for a long time. **Order product number GP49 for $99.**
