GAMES &

Datamost brings you the funtastic games—games that are fun, challenging . . . games where you must use skill, strategy and dexterity . . . games that span the universe from ancient pirate times to a robotic future with stops along the way for enjoyment at the county fair, a casino, a baseball game!

Scan this catalog for a list of our current games, and be sure to note the totally new ones just available: MISSING RING, BASEBALL, and SOLO POKER! Try them . . . you'll have a funtastic time.

Missing Ring

You've never enjoyed an adventure with such exciting HI-RES graphics! You're on a hunt for the mysterious Missing Ring . . . in a house full of diabolical traps. You see a FULL SCREEN layout of the level you're searching . . . plus you can call up a FULL SCREEN picture of any room you're in!

Finding the missing ring is a real challenge, a great battle of wits. And the spooky Ghost and dreaded Dragon add spice to the hunt. Here's the ultimate in HI-RES adventures . . . the one all others will be compared to! \$29.95.

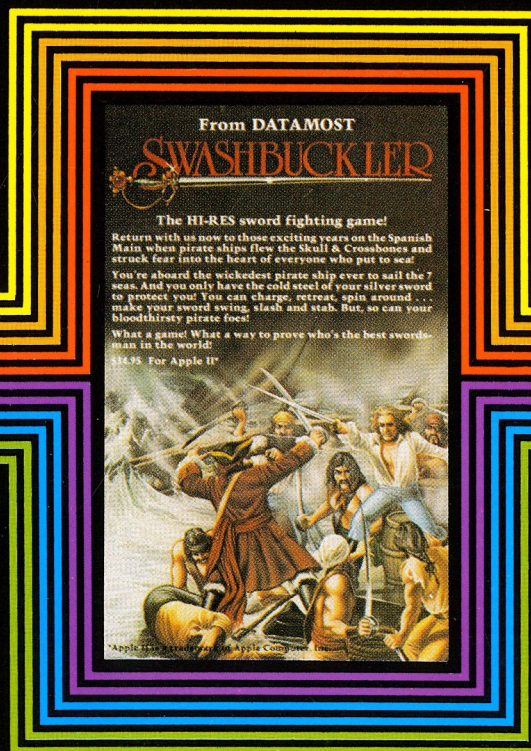

World Series Baseball

Here's world series calibre Baseball in HI-RES graphics that bat a thousand. The top baseball game for two people. Takes strategy and agility and real baseball 'smarts'.

The pitch comes and the batter swings . . . your fielders race into position . . . run down grounders, have to throw to the bases. A terrifically competitive game . . . the next best thing to actually playing in the series yourself. \$29.95. (paddles)

Swashbuckler

Here's the best HI-RES graphic animation game you've seen. You're the sword fighting hero under attack by vicious pirates, rats, snakes, samauri and other villains. You parry, thrust, lunge . . . use your sword like a living-weapon. You start below decks and fight your way topside, if you're skillful enough to vanquish the diabolical crew! \$34.95.

Using 6502 Assembly Language

Here's the best-seller that shows how anyone can program the Apple II*. Written by Randy Hyde, the book makes assembly language the friendly-language. Shows how to convert BASIC programs so they run up to 100 times faster, shows how to use your Apple to the maximum. Turns you into a programmer in the blink of a chapter. \$19.95.

6 ports & a joy of a stick!

Our exclusive EXPANDAPORT gives you outside-the-Apple convenience. Just plug in joy sticks, paddles, printer, light pen etc. Comes complete with speaker for greater sound. Faster and easier to use. \$69.95.

Our new, improved JOY STICK has a heavier metal case that doesn't slip or slide like plastic. And the durable switch's guaranteed for a million pushes. \$59.95.

Thief

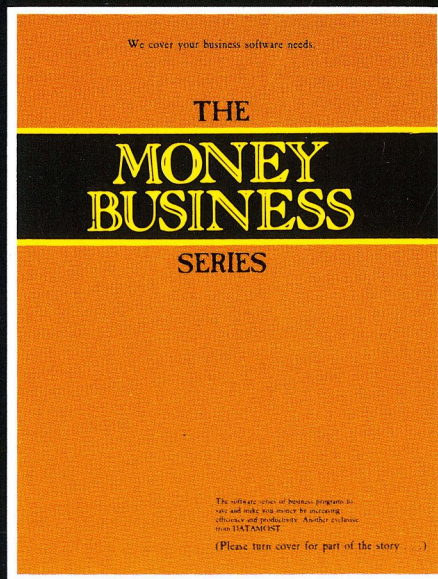

Watch out, here come the robots! And they're out to get you. Use your rocket gun to blast your way to safety . . . but watch out for the ionized death-walls, and the "unearthly blob" that attacks without warning. Top notch excitement. \$29.95.

BEYOND...

Datamost software covers the world of business. Our programs are not merely the brainchildren of some computer engineer. Rather, they have been written and designed by business experts — and tested in the field, in your kind of business environment. So, when you select a Datamost program, you know it'll work beautifully, easily, and live up to your expectations . . . while saving you time and money, and increasing productivity.

Money Business series

This extensive series of programs deserves to be called the masterpiece of business software. For, unlike competitors, it combines the finest attributes you can find. Each program covers its subject thoroughly . . . so it can be applied to your business. Each program comes with documentation which is easy to read . . . easy to understand and apply, and so complete that your questions are answered almost before they're asked! (Plus we offer full professional support by phone, mail or visit.) Our MONEY BUSINESS series includes general ledger, payroll, accounts receivable, accounts payable . . . with more being proven on-site and coming your way soon. CP/M. \$800/module. Complete package \$2500.

Throughout history real estate has always been the major wealth-builder. In fact, more high-living millionaires owe their creation to investments in real estate than anything else. And, it doesn't matter... boom times or bust... inflation or deflation... the knowing investor can beat the real estate game and make money, even create an empire!

But, the key to real estate success is accurate analysis of opportunities, cash flows, return on investment, and profitability.

These, plus tax consequences and other related information, are all necessary to making the right decision.

And that's what R.E.A.P. (Real Estate Analysis Program) is all about. It takes your input, probes for the right information, summarizes the data, the percentages, the opportunities... and automatically delivers the facts. In short, in a matter of minutes, R.E.A.P. can help you reap bigger profits... by pointing out the paths open to you and the considerations involved. It's the kind of information it'd take you days or weeks to do unaided... perhaps resulting in lost opportunities.

For all these reasons and more, R.E.A.P. is the program for any investor... a must program for the sophisticated investor. Whether you're interested in land, apartments, commercial properties or any phase of real estate, don't option, commit, invest, or buy without R.E.A.P. It can help you make good returns or even build a real estate empire!

R.E.A.P.
Real Estate Analysis Program

R.E.A.P.

The Real Estate Analysis Program is a real key to the money business of real estate investment. It charts cash flows, return on investment, shows profitability and tax consequences — so you become a knowledgeable investor. Loaded with the help you need to analyse every opportunity, to beat the real estate game. For Apple II. \$129.95.

Write-On!

There are word processors of all kinds, but there's only WRITE-ON! for anyone who wants the program praised by BYTE... the powerful word processor that lets you get started in about 5 minutes flat! Nothing easier... quicker to learn... or, so really useful. For Apple II, Apple III and for IBM. \$129.95.

A computer without a word processing program is only being half-utilized. And the unused half is the most important, because we all have reams of letters to write, scripts to type, text to edit, files to keep and data to record.

Write-On! was developed to solve all these problems, and more, for you... easily, quickly, and effortlessly. Have you succeeded? In the June 81 issue of Byte magazine, they reviewed Write-On! against the competition. And here are just some of the nice things they had to say.

"Write-On! is amazingly error-free and it ran the first time we put it on the computer. One of us thinks it's his choice of all the word processors that we reviewed." "Write-On! is a super word processor... touch typists can enter text quickly and easily... performs its editing chores with ease and speed... even provides for form letters using data files. This is a tremendously powerful and useful feature (especially for the price)."

To continue with words from Byte: "Along with excellent human engineering, Write-On! provides superlative documentation... leads the user by the hand... explanations are clear and concise..." And... "undoubtedly the most powerful features found in a microcomputer-based word processor."

Our users have been saying the same kind of things about Write-On! The reason, we believe, is because of all the word processors available, this one was designed to be user-oriented... to be easy for non-computer types to get professional results with. Whether used for business, professional, home or school... Write-On! is the right one because it is right-on.

Write-On!

The I.R.S. is dedicated to making sure you don't underpay your Federal Income Tax. They really don't worry about who overpays. Yet, each year tens of thousands of honest taxpayers overpay by a few dollars to many thousands of dollars. The reason? The confusing tax regulations, the various filing methods and the expertise needed to decipher the many choices and options.

TAX BEATER The TAX BEATER is your answer.

Written by an I.R.S. Enrolled Agent with 24 years of financial and tax planning experience, the TAX BEATER simply, carefully, and quickly helps you discover how to pay the minimum Federal income tax!

The easy to use TAX BEATER automatically evaluates up to 120 return options from your input. It searches and finds the most advantageous tax path for you, and can display up to 15 choices, then print out the optimum method so you pay only the minimum! With the TAX BEATER you have a top tax expert on hand all year long, figuring income averaging to loss carryovers, dividends vs. interest, alimony, pension income, to special exclusions. Whatever the I.R.S. needs... the TAX BEATER is ready to handle, to your benefit.

It's the perfect program for the average taxpayer... and indispensable for the financial professional. It's so complete, so logical that (especially in this interim year of unusual tax revisions) it can easily pay for itself many times over.

Save money. Save time. Save aggravation. Be ready for the I.R.S. with TAX BEATER, the easy to use and understand program that's updated for the latest year's tax laws.

TAX BEATER

Tax Beater

A necessity at tax time... a blessing year-round! Tax Beater takes the confusion out of taxes... whether the simplest or most complicated returns. It automatically evaluates up to 120 return options — so you pay the minimum. Perfect for the average taxpayer, indispensable for the financial professional. For Apple II. \$129.95.

See your computer store for the entire line of Datamost products. If unavailable, you may order direct. For games and books, include \$1.00 for shipping/handling. For business programs and hardware, add 3%. (California residents, add 6% sales tax also.)
