1 Title: Substitute Sys. Utilities for F)iler -
2 Created by: SYSOP on: 11/22/1988 13:39:46
3
4 Here's a tip for you Pascal users who prefer Apple's System Utilities to
5 Pascal's Filer program. Copy the SYSTEM.STARTUP program from your Utilities
6 disk to the Pascal disk that contains the Filer program, renaming it in the
7 process to: SYSTEM.FILER. This will cause the System Utilities to be invoked
8 whenever you key F)iler from the Pascal Command Line. Thanks to Dennis Cohen
9 for this simple, but elegant tip.
