MATCHMAKER SERIES

The MatchMaker family combines thorough instruction with exciting, interactive programming and graphics. Designed and tested by classroom teachers and matched to curriculum standards, MatchMaker adds the dimension of a friendly, patient and private tutor. Each subject contains 35 lessons with 10 questions per lesson, plus an "Editor" which allows users to add up to 10 additional lessons of 10 questions each. Whether used for reinforcement, enrichment, or just for fun, the user receives personalized attention, instant feedback and graphic rewards.

GERMAN VOCABULARY

This program is an excellent supplement to any basic classroom study of the German language. It provides extensive drill and practice for 98% of the standard vocabulary used in first and second year courses and helps drill English to German translations. Fill-in-the-blank is used to strengthen German usage and understanding with words and phrases. Through an Editor, up to 100 additional words may be added to customize lessons and content.

```
ITEMS REMAINING:  4
CHOICE: A    GUESSES: 3
        E    ERN  ABEN
_____
              German
Translate bracketed word(s):
We saw a movie
(yesterday evening).
