GOLAN

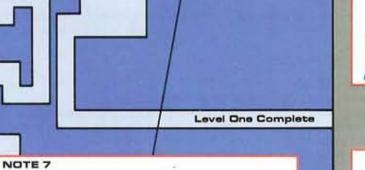

When the Jet is in a low corridor and hits a corner at an angle of less than SD degrees, it uses rader to negotiate the curve and remains in Jet form (see Figure 5).

When the Jet encounters a series of 90 degree angles (see Figure 6], you must quickly hit the correct direction keys to keep in Jet form.

Here is an example of how to find and shoot hidden creatures. Shoot the wall to your right. Wow! The bricks dissolve and

out comes an angry creature. Drop to the ground. The creature will stay directly above you at the top of the screen. Using either the Robot or the Jet, you can now demolish this

creature with repeated hits.
