Each Viewmaster 80 includes our powerful AppleWorks Expand software, allowing AppleWorks to run on the II+ with only 64K (or more) memory. (We recommend the RamFactor memory card, but most compatible Apple memory cards will work.) The software provides our full range of AppleWorks enhancements, including expanded records and word processor lines, multi-disk saving, time and date display on screen with any ProDOS clock, and more!

Features

- All new design
- 80 characters by 24 lines
- Fully compatible with all Apple languages and software. Includes AppleWorks enhancement software
- Very sharp 7X9 character matrix with true descenders

- Highest compatibility with existing 80 column software
- Power and input connector for light pen
- Very low power consumption through the use of CMOS devices
- High speed (18 MHz) scroll rate
- Upper and lower case characters with true descenders, both inverse and normal
- All on-screen editing functions are supported
- User definable cursor shape
- Compatible with Apple II, II+ and IIe
- 5 year warranty — parts and labor

TOTAL compatibility is the secret to the Viewmaster 80's great success. The Viewmaster 80 works with 80 column

applications (including CP/M, Pascal, WordStar, Format II, Easywriter, AppleWorks, Supertext 80, Zardax, Apple PI, Letter Perfect, dBase II, VisiCalc, Multiplan, and hundreds of others).

Viewmaster 80 delivers a super sharp, state of the art display, with a 7 x 9 character matrix giving you a clear, easily readable character.

Whether you're buying your first 80 column card or replacing a less powerful one, you'll appreciate the many extra features built in to the Viewmaster 80 because every feature of every 80 column card is already in the Viewmaster 80. The Viewmaster 80 is compatible with the Apple II, II+, and Franklin computers.

VIEWMASTER 80™

There's a good reason why Viewmaster 80™ has left the competition in the dust...total compatibility. From our free AppleWorks enhancement software to our famous warranty and complete technical support, Viewmaster 80 stands head and shoulders above any other 80 column card.

Each Viewmaster 80 includes our powerful AppleWorks enhancement software, allowing AppleWorks to run on the II+ with only 64K (or more) of memory. (We recommend the Ram-Factor memory card, but any compatible Apple memory card will work.) AppleWorks runs the expanded records and word processor lines, and added features like multi-disk saving, time and date display with any ProDOS clock and more.

Features:

- 80 characters by 24 lines
- Fully compatible with all Apple languages and software. Includes AppleWorks enhancement software
- Very sharp 7x9 character matrix with true descenders, both inverse and normal
- All on-screen editing functions are supported

- User definable cursor shape
- Compatible with Apple II, II+ and IIe
- 5 year warranty — parts and labor

TOTAL compatibility is the secret to the Viewmaster 80's great success. The Viewmaster 80 works with 80 column applications (including CP/M, Pascal, WordStar, MicroWriter II+, AppleWorks, Supertext 80, Zardax, Apple PI, Letter Perfect, dBASE II, VisiCalc, Multiplan, and hundreds of others).

Viewmaster 80 delivers a super sharp, state-of-the-art display, with a 7x9

character matrix giving you a clear, easily readable character.

Whether you're buying your first 80 column card or replacing a less powerful one, you'll appreciate the many extra features built into the Viewmaster 80 because every feature of every 80 column card is already in the Viewmaster 80. The Viewmaster 80 is compatible with the Apple II, II+ and Franklin computers.
