CREATE A CALENDAR

**The only calendar you'll ever need!**

Introducing CREATE A CALENDAR, a simple, powerful tool that lets you design your very own daily, weekly, monthly or yearly calendars in moments.

You can create calendars by choosing from over 70 graphics, borders and fonts for just about every occasion. From New Year's Day to birthdays. From television to aerobics. From scheduling a haircut to scheduling a formal. Or, use pictures from the Graphics Scrapbook™ collection or any Print Shop™ compatible graphics disks.

You can also write multiple lines of text on each date to keep track of everything you're supposed to do and everything you've done.

So this year, go ahead and make your own calendars. There couldn't be a nicer way to pass the time.

▶ Automatically add holidays, birthdays, or other special events to any calendar you create. For any year from 1753-9999.

▶ Type in events that occur throughout a year and watch them reappear on your weekly and daily calendars.

▶ Enter a regularly scheduled meeting — like Boy Scouts every third Monday of the month — and it will reappear on all following months.

▶ Print a list of holidays, birthdays, special events or everyday activities.

▶ Save your calendars for future use.

▲ Create calendars for deadlines, lessons, work, chores, menus, holidays, school events, games, birthdays, parties, homework and more.

▶ **Calendars print in one color only.**

▼ Use graphics from CREATE A CALENDAR or Graphics Scrapbooks.

HARDWARE REQUIREMENT: 64K memory required for Apple II and compatibles. CGA or Hercules card and 256K memory required for IBM PC. Works with most interfaces.

PRINTER SUPPORT:

- IBM Proprinter
- IBM Graphics Printer
- Epson RX, MX, FX, LX, LQ, JX
- Star Micronics 10X/15X
- C. Itoh Prowriter
- Okidata[1] 92/93, 192/193
- Imagewriter I & II
- HP ThinkJet
- Panasonic KX 1080/1081, 1091/1092
- Toshiba 321/351, PI321/1351
- Citizen MSP 10/20
- Blue Chip M120/10
- Leading Edge Prowriter I/II
- NEC P6/P7
- Brother M1509
- MPS[1] 801/803, VIC[1] 1525
- Okidata[1] 120, Star[1] 10GS

[1]Graphic resolution may produce unsatisfactory results when using monthly calendar.
