

Colored beamer layout with beamertheme-light

F. Vergnet[†] and V. Goepf[‡]

[†] : LMO, Université Paris-Sud, Université Paris-Saclay,
[‡] : MAP5, Université Paris-Descartes

Package version 1.1 (12/11/2024)

How to use the package

1. Download `beamertheme-light` from CTAN.
2. Include `\usepackage[coloroption]{beamertheme-light}` in your `.tex` beamer document.
3. Replace `coloroption` by the color of your choice: “red”, “blue”, “purple”, or “green” (the default color)
4. The beamer document will have the same layout as this document.

Further options

1. Provide a short title field.
2. Provide a short author field.
3. Use the command `\thankframe{mymessage}` for the last frame.

This is the thankframe
